STORAGE SHELVES
WORKSTATIONS
MOBILE UNITS

H+H FLEXSHELF®

Stability and flexibility

From shelf to all-rounder Storage, preparation, work

H+H SYSTEM's innovative, high-quality aluminium product is a flexible system that expands easily to different widths and depths. Combined with a wide range of accessories, this is a versatile storage system that satisfies all requirements.

100% compatible

The H+H FlexShelf is entirely compatible with the H+H ISO modular tray system. Shelf organisation systems and drawers can also be fully integrated. You can even use modular tray systems by other manufacturers.

Create your ideal storage and logistics environment

The H+H FlexShelf can be assembled from scratch in any way you please, thus creating a multifunctional workstation.

Assemble exactly
to your preferences

Infinite possibilities
A personalised storage system

H+H FLEX SHELF®

Huge variety of dimensions

The flexible shelf system is designed according to the add-on principle. Start with the base unit and add any number of extensions to it – now or later.

Load-bearing capacity up to **400 kg** per column

Expand as desired:
theoretically infinite

Heights

905 mm
1225 mm
1545 mm
1920 mm

Sizes

300 x 400 mm
400 x 400 mm
600 x 400 mm
900 x 400 mm
300 x 600 mm
400 x 600 mm
600 x 600 mm
900 x 600 mm

Create the optimum storage system for you, no matter how complex your needs are: choose from two standard depths, various heights, and a variety of widths.

A wide variety of dimensions
for greater flexibility

The slide with “3 in 1” function

Easy to insert, the multifunctional slide offers

3 options:

- straight pull-out
- hinging down
- passing through

The integrated pull-out stopper prevents modular trays from falling out.

ClipOn effect

Clip on easily and adjust the height with no effort. No tools necessary.

From individual column to complete workspace

All H+H FlexShelf components are easy to put together, providing you with a perfect logistics concept.

Everything in its place

Storage shelves

“Space and time” – probably the most precious aspects of work today. H+H FlexShelf puts both these aspects at the top of the list. The proof? H+H SYSTEM has guaranteed up to 30 % more of each for more than 40 years.

H+H support systems

Both the easily adjustable ClipOn slides and the full extension runners, designed for heavy weights, can be equipped with ISO modular trays, shelves, and pull-out shelves.

H+H ISO modular tray system

Available in three heights, the standardised ISO modular trays, combined with the flexible H+H dividers, save up to 30 % space when storing any medical supplies and medicines.

H+H slides inclined

The slide tilts at 25 degrees, making work comfortable and convenient, and providing an excellent overview of stored products despite the height. Products are easy to remove even when they might otherwise be hard to reach.

H+H shelves

For bulk goods and heavy loads in suitable widths and depths – of course you can also use the H+H shelf dividers.

Labelling options

Labels and label holders in different sizes and colours, for any inventory management system – compatible with QR codes, bar codes and RFID.

Castors

The castor diameter of 50 mm makes our shelves easy to move around on a temporary basis (e.g. for cleaning purposes). Easy to attach and to remove.

Adjustable feet

Stable and height-adjustable to compensate for uneven floor surfaces.

Finding instead of searching

Storage shelves

With 2 standard depths and a variety of widths, medical supplies can be stored in a clearly arranged and space saving manner. Combined with shelves, modular trays and drawers, this space saving solution works storage miracles.

Optimal storage
and flexible
expansion

Ideal working conditions

Keep your products clearly sorted, stored safely, and within easy reach. This saves both time and space! Coupled with our comprehensive labelling system, you can minimise errors while boosting efficiency.

With ISO modular trays for medicines, phials, and small parts

With pull-out shelves and drawers

With shelves for bulk goods

Storage and preparation Workstations

Adding individual H+H components to the H+H FlexShelf allows you to accommodate any logistics process and optimise operations time efficiently.

H+H worktops

Integrated work surfaces help you optimise your work processes, for example when preparing medicines.

H+H ISO modular tray system

Available in three heights, the standardised ISO modular trays, combined with the flexible H+H dividers, save you space when storing any medical supplies and medicines.

H+H support systems

Both the easily adjustable ClipOn slides and the full extension runners, designed for heavy weights, can be enlarged using ISO modular trays, shelves and pull-out shelves.

H+H SYSTEM

H+H slides inclined

The slide tilts at 25 degrees, making work comfortable and convenient, and providing an excellent overview of stored products despite the height. Products are easy to remove even when they might otherwise be hard to reach. ISO modular trays, shelves with H+H sliding dividers or bins are also easily interchangeable.

Pull-out shelves

You only need one finger to move the pull-out shelves and create some valuable space – the integrated stopper ensures safety.

Labelling options

Labels and label holders in different sizes and colours, for any inventory management system – compatible with QR codes, bar codes and RFID.

Castors

The castor diameter of 50 mm makes our H+H workstations easy to move around on a temporary basis (e.g. for cleaning purposes). Easy to attach and to remove.

Adjustable feet

Stable and height-adjustable to compensate for uneven floor surfaces.

Multifunctional all-rounder Workstations

Saves both space and time!
Thanks to our flexible H+H
FlexShelf workstations, tasks
such as preparing medicines,
scanning products, and writing
can be effectively tackled. Cu-
stomised to suit your needs
through individual configuration.

Equipped to satisfy
individual requirements
Optimum use of
space and time

Creating space

Customise our workstations to meet
your space requirements and make
optimum use of any available room.

H+H FLEXSHELF®

Unlimited possibilities

Depending on your needs and requirements, the versatile H+H FlexShelf can be tailored to fit all your individual needs.

Flexible and versatile
Anything is possible

Effortless transport

Mobile storage and workstations

To ensure that ISO modular trays and H+H exchange trays are transported effortlessly from one place to the next, our “mobile stations” boast sturdy castors that can negotiate any obstacle.

Handle

Comfortable handle for moving our “mobile stations” easily.

H+H support systems

Both the easily adjustable ClipOn slides and the full extension runners, designed for heavy weights, can be enlarged using ISO modular trays, shelves and pull-out shelves.

H+H worktops

With their sturdy, jointless design, they provide the perfect surface for (un)wrapping goods or simply placing products on them.

H+H drawers

High-quality aluminium drawers on smooth-running full extension runners. Partitioned with our flexible H+H sliding dividers, they create 30 % extra space.

H+H shelves

For bulk goods and heavy loads in suitable widths and depths – of course you can also use the H+H shelf dividers.

Castors

Maximum manoeuvrability and easy to move thanks to castors 80 mm and 125 mm in diameter. The stop mechanism ensures that the system remains secure when motionless.

The height of versatility

Mobile storage and workstations

H+H SYSTEM's intelligent and flexible solutions satisfy all requirements, such as preparing, storing, transporting.

Perfect combination

H+H SYSTEM's products complement each other perfectly

Bottle storage
Transporting bottles has never been easier.

H+H FLEXSHELF®

Adding a new dimension to versatility
However you want to assemble and fill
your H+H FlexShelf, the possibilities
are endless.

Infinite variety
Anything is possible
